

# CaromScore 2.0 New functions

---

## New languages

---

- Spanish
  - Dutch
- 

## General

---

- Clear separation between "Simple Mode" and "Advanced Mode".
  - Crash safety. If the program terminates unexpectedly (power failure, computer crash), CaromScore restores the running game when restarting. No points are lost, timers are stopped.
  - Support of modern remote controls (Logitech R 500, Logitech Spotlight)
- 

## New modes of play

---

- "Survival"
  - 3 players
  - "Casin"
  - Handicap mode for all game types
- 

## Player database

---

- Player photos
  - Countries with flags
  - Excel import and export
  - Only one file (containing players, clubs and countries) for data exchange with CaromScore on other computers
- 

## Scoreboard

---

- White or yellow ball at the active player
  - Fade in and out club name, club logo, player photo, country flag, 3 last series, percentage display for handicap
  - New timer graphics for „3 cushion, time limit per stroke“
- 

## Score sheet

---

- New chart
  - Set system: display of all maximum series and averages per set
- 

## List of games

---

- Advanced filters (start and end date)
- Backup function creates a file with all games, players, clubs and countries.
- Export of selected games. Use this function to transfer the selected games to CaromScore or CaromStatistics (in preparation) on another computer.
- Excel export of all games of a selected player. Use this function to evaluate your games in Excel.
